PATENT OFFICE

MAR 24 1965

DIVISIONS 81 & 82

We are proud to offer this complete line of glass lighting and lamp parts.

The Jeannette Glass Company is a basic producer of glass, and has the experience and facilities to make many different glasses. As an example, all white glass offered is made of the famous "Glasbake®"—heat resistant—formula. Glasbake® is stronger than ordinary glass.

We are exclusive glass manufacturers, and make parts only—no complete lamps or lighting fixtures.

We have pool trucks to the major cities frequently, and a complete shipping service to all destinations as required by our customers.

This catalog contains many new items at prices that lead the glass parts industry.

For your convenience, showrooms are maintained as follows:

NEW YORK, NEW YORK

The Jeannette Glass Co.
